

Print Content Management Dashboards.

Advanced analytics platforms to unleash the power of your data.

Easier access to data leading to improved decision making.

In today's fast-paced, competitive, technology-led business environment, business success is built upon the ability to truly harness the power of data. So, having the ability to quickly and effectively access critical data can boost employee productivity and aid the decision-making process.

Challenges you might be facing.

The rapid growth in the amount of information being produced within organisations and the way it's being managed is impacting directly on organisational efficiency, employee productivity, IT infrastructure complexity, and most importantly, profitability.

- **Print related costs savings.**

Businesses need a flexible solution that can effectively analyse and display data in order to rationalise the existing print estate whilst maximising employee productivity.

- **Improve visibility of critical data.**

Businesses can no longer afford to allocate valuable IT resources ineffectively; minimise time to identify your high-volume users and analyse their usage.

- **Identify key applications and trends.**

Businesses need an agile platform to analyse the use patterns for different users and departments.

- **Share information more effectively.**

Distribute reports to key departments on print usage and costs, whilst improving compliance and data security.

Key business solutions.

The need for visible, secure, efficient and effective data management solutions is clear, and enabling authorised users to instantly access the content is of huge organisational benefit. That's why organisations are increasingly turning to Kyocera Print Content Management dashboards.

Kyocera offers a pre-integrated BI solution which is delivered with a complete set of standard configurations. The configured dashboards deliver significant value to both the IT department, and to other stakeholders within the organisation, who have an interest in understanding how printers and MFDs are being used by the wider user population.

Cost Management.

- See clearly where print demand is coming from (user, print groups, application, device and the relationships between them).
- View the latest available usage data for your multifunctional devices, giving you shorter and more effective decision cycles.
- Automate and personalise monthly reporting for different budget holders.
- Identify opportunities to improve the efficiency of your print management infrastructure.
- Monitor the effectiveness of your print management policies and rules.

Risk Management & Security.

Provide a long-term audit trail by user even after the data has been deleted from your print management system
Environmental impact.

The dashboards show CO2 emissions and energy consumption improving visibility of the environmental impact of your print estate

Quick and personalised analysis.

The dashboards offer flexibility to view data from the entire organisation or filtered to show data of interest (by department or group). On demand reports available.

Kyocera Document Solutions has championed innovative technology since 1959. We enable our customers to turn information into knowledge, excel at learning and surpass others. With professional expertise and a culture of empathetic partnership, we help organisations put knowledge to work to drive change.
